

ISACA's Oceania CACS2010 Conference in Melbourne Australia to Spotlight Latest IT Audit, Security and Governance Issues and Solutions

Rolling Meadows, Illinois, USA (9 June 2010)—The latest business technology opportunities, risks and challenges will be addressed at ISACA's 2010 Oceania Computer Audit, Control and Security (CACS) Conference, in Melbourne, Australia. The event brings together hundreds of global and local business and information technology (IT) experts who will share experiences and knowledge.

Hosted by ISACA, a global association of 86,000 IT and business professionals, the Oceania CACS2010 conference will be held 2-4 August 2010 at the Grand Hyatt in Melbourne, Australia. Reflective of ISACA's high standards, the speakers are globally respected industry experts who will present their latest thinking, research and practical experience, along with tips and tools to help IT professionals add value to their enterprises.

Oceania CACS2010 will focus on the theme "Masters of Change." Attendees will discuss the latest challenges and solutions for critical industry issues, including risk management, cloud computing, data loss prevention and the metamorphosis of assurance. Real-world case studies will provide attendees with practical, tested guidance.

"Oceania CACS2010 provides the opportunity for IT audit, security and governance professionals to attend content-rich and thought-provoking sessions that delve into some of the biggest challenges facing IT governance, risk, audit and security professionals," said Mitra Minai, chair of the Oceania CACS2010 Conference Committee and vice president of ISACA Melbourne(Australia) Chapter. "Industry leaders will discuss the latest solutions in the rapidly evolving IT profession and will arm attendees with knowledge and advice to benefit their organizations and stand out from the crowd."

Featured presentations at the conference include:

- IT Risk Management Trends and Insights—Bruce Young, CISA, CISM, CA, Ernst & Young
- Future Communication Technologies—Hugh Bradlow, Ph.D., Telstra
- Challenges of Effective Corporate Governance in an Ever Changing Environment—Stephen Mayne, Mayne Report
- The Art of Negotiation From an Audit/IT Professional's Perspective—Michael Matthew, CISA, Matthew and Matthew
- Creating an Intentional Culture of Security in Organizations—Jo Stewart-Rattray, CISA, CISM, CGEIT, RSM Bird Cameron

- Continuity Management: Why Disaster Recovery Is Only Part of the Picture—Stephen Doyle, Medicare Australia
- Building Personal Resilience for Health, Happiness and Performance—Stuart Taylor, Resilience Institute Australia Pty Ltd.

“Attendees will benefit from valuable research, expertise and vendor information that they can bring back to the office to optimize their organizations’ IT performance immediately,” said Peter Graham, president of ISACA’s Melbourne (Australia) Chapter.

Postconference workshops will also be offered on the following topics: Digital Forensics 101, SANS—20 Critical Security Controls, and how organizations can maximize their IT-related investments using the Val IT framework.

The registration fee for the Oceania CACS2010 conference is AUD \$1,850 for members and AUD \$2,150 for nonmembers. Attendees can earn up to 35 continuing professional education (CPE) hours.
